TAFT'S TRIBUTE TO POPE LEO XIII

One of the Greatest Men Who Ever Sat on the Throne Of Saint Peter.

ABOVE ALL HE WAS A MAN.

No Mere Lay Figure, His Intellectual Character High, His Abilities Broad.

Washington, June 11.-President Taft gave a vivid mental picture of Pope Leo XIII and declared the lamented pope to have been one of the greatest popes that ever occupied the papal chair, in the course of his address last night before the congress of Catholic missionaries in describing his vis-It to the vatican a few years ago, as the representative of the United States in the settlement of the Philippine friar lands question.

"I had the honor of being received by Leo XIII," said the president, "one of the greatest popes that ever sat in that chair, and a man of such high intellectual character, such broad ab-

illities, that I shall always congratulate myself on having had the opportunity to come into his presence and meeting him. I had supposed he, at 92 years old, was a lay figure rather than the head of the church and that we would really be turned over to the cardinals who really conducted church matters, but my mind was quickly disabused on that point, for as soon as I was brought into his presence I found a most alert old gentleman quite quick in movement, quick in intellectual appreciation of what was said to him and intensely interested in the subject, which it was my honor and my opportunity to present.

"After an address had been made to him for some 30 minutes, he responded in French in 15 or 20 minutes, showing that he had caught all the points that were made, that he was fully alive to the importance of the issue and that he proposed to have a good deal to say about how that issue should be settled."

Speaking of the failure to reach a definite agreement at Rome the president told how the pope expressed his disappointment but that he delegated one of his agents to go to the Philippines and that the matter was finally adjusted. And the president added that the question as subsequently settled was satisfactory to both sides, "so that there is not today in the Philippine islands an existing questlon; no "snakeheads," as Gov. Wright was in the habit of calling them, that can rise to trouble either the civil or church governments in those islands."

I can send lots of customers to our local druggist, as I am a strong believer in your cure for Bright's Disease, due to the following: The local physicians gave a young lady up as incurable. Her father brought a pamphlet of yours to me for my advice. I found I knew two of those whose names were given, viz.; Ex-U. S. Sub-Treasurer Spaulding and Dr. Zelle. I wrote Spaulding. His reply was so satisfactory that the young lady's father ordered six bottles. Before she had finished two she was out driving, and today is teaching school in Arizona, hearty and well. I have done lots of talking for you this past four years, and a good many of my customers who have been afflicted are well. The reason that I am writing this is that another one wants to start taking the Compound and wants to read up on your literature.

circuit court of appeals, in an address at the commencement exercises of the Chicago Kent college of law.

"If retired at a specified age," said he, "they should not be thrown aside as a wornout garment, but pensioned, that the closing years of the life of a just judge may be passed in dignified ease. I would have the appointment made by the governor, for when such responsibility is cast upon the chief executive of the state its weight is felt; and as well for his own reputation as in the interests of the state, he will seek for ability, experience and ability to fill the position. But when that responsibility is distributed among 20,000 voters more or less, many of them ignorant of the men and of the qualities needful for the office—how much consideration is given to the matter? How much responsibility for the selection is falt by each individual vote?"

FRENCH AUTOMOBILE **BUSINESS VERY BAD**

New York, June 11 .- A. E. Schwartz, New York, June II.—A. E. Schwattz, foreign representative of an American automobile manufacturer, arrived here from Europe yesterday and reported that the motor car business in France was in a deplorable condition. He said that because of the great overproduction of motor cars abroad the manufacturers are literally begging dealers to dispose of their stock and that many hundreds of cars are in

storage.

Many buildings which for years have been occupied by automobile dealers, he says, now bear the "for rent" sign.

Coupled with the over-production, Mr. Schwartz attributes the repressive action of the government, the police making as many arrests as possible and frequently for the most triffling offenses, and the authorities assessing a tax of \$1 for each seat in a motor car and what amounts to practically, a tax of \$2 for each horsepower. A 30-horsepower car with seven seats must, pay a tax of about \$67.
